Language & Abbreviations Used

Mo - Monohulls

Mu - Multihulls

** – means the item applies to all types of boat in all Categories except 5 for which see Appendix B or 6 for which see Appendix C.

RED TYPE indicates a significant change in 2024.

DOUBLE UNDERLINE TYPE indicates a term defined in Offshore Special Regulation 1.03.1.

ITALIC TYPE indicates a term defined in the Racing Rules of Sailing.

Other than in headings or in offshore special regulation 1.02.1, **BOLD BLACK TYPE indicates a term defined in the Equipment Rules of Sailing.**

BOLD BLUE TYPE indicates a Sail Canada prescription.

BOLD Green TYPE indicates a {state your race here} prescription.

Guidance notes and recommendations have been removed from the Regulations and are available on https://www.sailing.org/inside-world-sailing/rules-regulations/offshore-special-regulations/

The use of the masculine gender shall be taken to mean either gender.

Administration

The Offshore Special Regulation are administered by the World Sailing Special Regulation Sub-Committee whose terms of reference (available at: https://www.sailing.org/inside-world-sailing/rules-regulations/constitution-regulations/) are as follows:

World Sailing Regulation 6.9.8.3 - The Special Regulations Sub-Committee shall:

- (a) be responsible for the maintenance, revision and changes to the World Sailing Offshore Special Regulations governing offshore racing, under licence from ORC Ltd. Such changes shall be biennial with revised editions published in January of each even year, except that matters of an urgent nature affecting safety may be dealt with by changes to the Regulations on a shorter time scale.
- (b) monitor developments in offshore racing relative to the standards of safety and seaworthiness.

SECTION 1 – FUNDAMENTAL AND DEFINITIONS

Categories	1.01	Purpose and Use
	1.01	Purpose and Use
**	1.01.1	The purpose of the Offshore Special Regulations (OSR) is to establish uniform minimum
		equipment, accommodation and training standards for monohull and multihull
		(excluding proa [asymmetrical catamaran]) boats racing offshore.
**	1.01.2	The <u>OSR</u> do not replace, but supplement, the requirements of governmental authority,
		Classification Society certification, the Racing Rules of Sailing (RRS), Equipment Rules of
		Sailing (ERS), class rules and rating systems.
**	1.01.3	Use of the OSR does not guarantee total safety of the boat and her crew. Particular
		attention is drawn to the description of <u>OSR</u> for inshore racing which includes that
		adequate shelter and or effective rescue is available all along the course. This is not
		included in more onerous <u>OSR</u> categories.
	1.02	Responsibility of Person in Charge
**	1.02.1	Under RRS 3 the responsibility for a boat's decision to participate in a race or
		continue racing is hers alone. The safety of a boat and her crew is the sole and
		inescapable responsibility of the <i>person in charge</i> who shall do his best to
		ensure that the boat is fully found, thoroughly seaworthy and manned by an
		experienced and appropriately trained crew who are physically fit to face all
		weather. The <i>person in charge</i> shall also assign a person to take over his
		responsibilities in the event of his incapacitation.
**	1.02.2	Neither the establishment of the <u>OSR</u> , nor their use by <i>organising authorities</i> , nor the
		inspection of a boat under the <u>OSR</u> in any way limits or reduces the complete and
		unlimited responsibility of the <i>person in charge</i> .
**	1.02.3	By participating in a race conducted under the <u>OSR</u> , the <i>person in charge</i> , each competitor
		and boat owner agrees to reasonably cooperate with the <i>organising authority</i> and World
		Sailing in the development of an independent incident report as specified in <u>OSR</u> 2.02.
	1.03	Definitions, Abbreviations, Word Usage
**	1.03.1	Table 1 – Definitions of Terms used in this document

Abbreviation	Description
#	Pound force (lbf)
ABS	American Bureau of Shipping
AIS	Automatic Identification Systems
Coaming	The part of the cockpit, including the transverse after limit, over which water would run when the boat is floating level and the cockpit is filled to overflowing
COLREGS	International Regulations for Preventing Collisions at Sea
Contained Cockpit	A cockpit where the combined area open aft to the sea is less than 50% maximum cockpit depth x maximum cockpit width
Crewmember	Every person on board
DSC	Digital Selective Calling
EN	European Norm
EPIRB	Emergency Position-Indicating Radio Beacon
ERS	World Sailing - Equipment Rules of Sailing
First Launch	Month & year of the first launching when the individual boat, was completed and equipped for sailing
GMDSS	Global Maritime Distress & Safety System
GNSS	Global Navigation Satellite System

`ataa	Orioc
Jacey	ories

GPS	Global Positioning System
Hatch	The term hatch includes the entire hatch assembly including the lid or cover as part of that assembly
НМРЕ	High Modulus Polyethylene (Dyneema®/Spectra® or equivalent)
IBRD	International Beacon Registration Database
IMO	International Maritime Organization
ISAF	International Sailing Federation – (now World Sailing)
ISO	International Standard Organization or International Organization for Standardization
Jackstay	A <u>securely fastened</u> webbing or rope which permits a <u>crewmember</u> to move from one part of the boat to another without having to unclip a safety harness <u>tether</u>
L _H	Hull Length as defined by the ERS
Lifeline	Rope or wire line rigged as guardrail/guardline around the deck
LSA	IMO International Life-Saving Appliance Code
LwL	(Length of) loaded waterline
Moveable Ballast	Material carried for the sole purpose of increasing weight and/or influencing stability and/or trim and which may be moved transversely but not varied in weight while a boat is racing
ORC	Offshore Racing Congress (formerly Offshore Racing Council)
OSR	Offshore Special Regulation(s)
Permanently Installed	The item is effectively built-in by e.g. bolting, welding, glassing etc. and may not be removed for or during racing
PLB	Personal Locator Beacon
Rode	Rope, chain, or a combination of both, which is used to connect an anchor to the boat
RRS	World Sailing – Racing Rules of Sailing
Securely Fastened	Held strongly in place by a method (e.g. rope lashings, wing nuts) which will safely retain the fastened object in severe conditions including a 180° capsize and allows for the item to be removed and replaced during racing
SOLAS	Safety of Life at Sea Convention
STCW	Standards of Training, Certification and Watchkeeping for Seafarers
SSS	The Safety and Stability Screening numeral
STIX	ISO 12217-2 Stability Index
Tether	A safety line used to connect a safety harness to a strong point or Jackstay
Variable Ballast	Water carried for the sole purpose of influencing stability and/or trim and which may be varied in weight and/or moved while a boat is racing.
World Sailing	formerly the International Sailing Federation or ISAF

1.03.2 The words "shall" and "must" are mandatory, and "should" and "may" are permissive.

SECTION 2 – APPLICATION & GENERAL REQUIREMENTS

Categories	2.01	Categories of Events
**		Organising authorities shall select from one of the following categories and may modify the
		OSR to suit local conditions.
	2.01.4	Category 3
MoMu3		Races across open water, most of which is relatively protected or close to shorelines.
	2.02	Incident Reporting
**		The <i>organising authority</i> of a race will establish whether any incidents occurred, which if reported would likely be relevant to evolving the Offshore Special Regulations, the plan review process, or in increasing safety. The <i>organising authority</i> will follow any guidelines issued by World Sailing concerning incident reporting.
	2.03	Inspection
**		A boat may be inspected at any time. If she fails to comply with the <u>OSR</u> her entry may be rejected, or she will be subject to protest.
	2.04	General Requirements
**	2.04.1	All equipment required by <u>OSR</u> shall:
**		a) function properly,
**		b) be regularly checked, cleaned and serviced,
**		c) if it has an expiry date, it will not have exceeded its expiry date whilst racing,
**		d) when not in use be stowed in conditions in which deterioration is minimised,
**		e) be readily accessible, and
**		f) be of a type, size and capacity suitable and adequate for the intended use and size of the boat.
**	2.04.2	Heavy items shall be <u>permanently installed</u> or <u>securely fastened.</u>
